

From Bits to Data, from Pipes to Clouds

The network as an asset for convergence of Telecoms, IT and Media into an Internet of Knowledge

4-7 October 2011, Berlin, Germany

Attend ICIN 2011 for insights on the transformation of traditional telco models Early Bird Rates expire 1st September

The advance programme for the ICIN 2011 conference is available for [download here](#). You can still benefit from the Early Bird Rate if you [register](#) soon.

ICIN 2011 provides a comprehensive, varied and technically sound view on how the communications industry and academia are transitioning from the traditional telco model towards a communication landscape focusing on data, information and related distributed functions.

In addition to a full conference programme of keynote presentations and technical papers, [ICIN 2011](#) includes:

- Tutorials related to **Identity in the Cloud** and the evolution from Next-Generation-Networks towards the **Future Internet**
- The 3rd International workshop on **Business Models for Mobile Platforms** focusing on **Access and Competitiveness in Multi-Sided Markets**
- The **Integrating Residential Sensor Networks with Cloud Services to Create N-Play Opportunities** workshop addressing the convergence of **Cloud Computing** and **Internet of Things**.

[Register](#) by 1 September to secure Early Bird discounts and preferential rates at the [conference hotel](#).
