

From Bits to Data, from Pipes to Clouds

The network as an asset for convergence of Telecoms, IT and Media into an Internet of Knowledge

4-7 October 2011, Berlin, Germany

ICIN 2011 Programme Now Available

Join leading industry experts in Berlin, Germany, October 4-7, 2011 for insights into the future of network services and applications.

The [ICIN 2011](#) conference covers telecoms and web services and service architectures from both technical and business perspectives. ICIN focuses attention on the interplay between web and telecom technologies, services and players, and end users. The conference reports on the latest results from R&D laboratories as well as commercial deployments.

Full details of the ICIN 2011 Advance Programme can be downloaded [here](#).

The ICIN conference programmes are created by an independent committee of industry experts from papers submitted by leading strategists, engineers and researchers from industry, academia and government. A rigorous peer review process guarantees a cutting edge conference programme free of hype.

ICIN conferences are renowned for their debates on the impact of emerging technology, architecture and industry trends on intelligent communications services.

[REGISTER NOW!](#) Early Bird rates are in effect through 1 September!

You will find additional information on our web site at www.icin.biz.

As the chairmen of the Technical Programme Committee and International Advisory Board, we look forward to welcoming you in Berlin at ICIN 2011!
