

Realising the Power of the Network

Enabling the Internet of Everything

8-11 October 2012, Berlin, Germany

Attend ICIN 2012 for insights on the Internet of Everything Early Bird Rates expire 7 September

The advance programme for the ICIN 2012 conference is available for download [here](#). You can still benefit from the Early Bird Rate if you [register](#) soon.

The focus of [ICIN 2012](#) is voice, data or multimedia services for enterprises or consumers that make use of capabilities in the operator network. These are becoming increasingly important as the telecom industry transforms itself to meet the challenges and grasp the opportunities presented by OTT players and social networks. In addition to a full conference programme of keynote presentations and technical papers, [ICIN 2012](#) includes:

- A choice of two tutorials: [Towards a Converged M2M Service Platform](#) or [Service Control Paradigms in Future Networks](#)
- A choice of three collocated workshops: [MediaSync 2012](#) addresses synchronization techniques to achieve a satisfying user experience; the [2nd ULOOP Industrial Workshop](#) focuses on the impact of user-centric wireless networks; and the [Smart Home Standardisation Ecosystem workshop](#) examines how the smart home ecosystem can deliver a compelling customer experience

[Register](#) by 7 September to secure Early Bird discounts.

For further information check the conference website at <http://www.icin.biz>.
