

Bordeaux, France Sofitel-Pullman Hotel
20 - 23 October 2008

Services, Enablers and Architectures Supporting Business Models for a New Open World

Join us...to explore the future of communications

[ICIN](#) is pleased to announce the [Conference Programme](#) for ICIN 2008 in Bordeaux, France, 20-23 October 2008.

[ICIN](#) is recognized as one of the [world's leading conferences in its domain](#) and has a track record of attracting the leading experts from all sectors of the ICT industry with high quality presentations and discussions. [ICIN 2008](#) will highlight future services, enablers and architectures that capitalize on the transition to an IP environment and lead to enhanced user expectations and experiences. [ICIN](#) provides an outstanding [programme](#) that addresses current hot topics within the industry.

[ICIN](#) operates on a rigorous peer review process and presents an insiders' perspective straight from the heart of a rapidly changing and increasingly important industry sector.

"The number of abstracts submitted to ICIN 2008 was the highest in recent years," noted Stefan Uellner, Chair of the ICIN 2008 Technical Programme Committee, "and the quality of the submissions was outstanding." The most important and interesting contributions were selected during an intensive 3-day workshop hosted by T-Systems at the beginning of May. *"The resulting programme for ICIN 2008 contains many insights into current industry trends and fully justifies the ICIN maxim 'exploring the future of communications'" stated Uellner.*

[ICIN 2008](#) will be the twelfth in a series of international events which was initiated in 1989. The [ICIN](#) series of conferences brings together leading telecom and internet experts from industry, universities and government worldwide. Some highlights of the 2008 Advance Programme include:

Keynote speakers such as:

- **Simon Bureau**, CEO of Vectis Corporation, Korea
- **Agustin Núñez-Castaín**, Handsets and Services Innovation Director at Telefónica, Spain
- **Dr Kou Miyake**, Director of NTT Service Integration Laboratories, Japan

Tutorials to be offered include:

- **Delivering Services over IMS – It's Showtime, Folks!** Ulf Olsson (Ericsson, SE)
- **Identity Management in the Service Delivery Environment – Enabling Secure Web 2.0 and 3rd Party Based Application**, Anders Lundqvist (Oracle, SE)
- **Cross-Fertilization of IMS and IPTV Services over NGN**, Niklas Blum (FOKUS, DE) and Christian Riede (FOKUS, DE)
- **Security Aspects and Mechanisms of the Identity Management**, Igor Faynberg (Alcatel-Lucent, US) and Hui Lan Lu (Alcatel-Lucent, US)

Further details can be found in the [Advance Programme](#).

[Registration is now open](#) and Super Early Bird rates are in effect through 30 June!
