

Policy and Context Evolution

Session Passage Rights and Chargeability within Dynamic Network Context

11 October 2012, Berlin, Germany

held in conjunction with

PACE12: First International Workshop on Policy and Context Evolution

The 1st International Workshop on Policy and Context Evolution ([PACE12](http://www.icin.biz/pace12)) will take place on 11 October 2012 in conjunction with the [ICIN 2012](http://www.icin.biz) conference in Berlin.

Changing user behaviour and expectations is driving the Policy and Context Evolution. Where services are 'discovered', applications are downloaded, content streamed from the Cloud, business use and personal use are blurred and access methods can be selected or swapped. The Internet and Cloud facilities are becoming the universal vehicle for applications and content delivery, but they need Policy & Context to enable them to be monetised. Mobile Broadband services, where resources are constraint, demand stricter policies than fixed connections. Policies can determine switching to alternative access methods or other delivery networks as a result of priorities and context. Therefore, the Policy decision is essential to implementing strategies, and must be a flexible, adaptive and dynamic process.

THE PACE WORKSHOP

The PACE workshop is a specialised platform to discuss all of the above and more. PACE12 calls for original contributions addressing these issues. Prospective speakers are invited to submit research papers on the following themes:

- Policy strategy and new services
- Policy for the value chain and stakeholders
- Business models, Charging and Monetising Policies
- Policy and Context capture, interworking and protocols
- QoS, QoE and Context Evaluation and Telemetry

Detailed topics within these themes are listed in the PACE Call for Papers at: <http://www.icin.biz/pace12> or download the call for papers [here](http://www.icin.biz/pace12).

Registration and Paper Submission are through the EDAS system at <http://edas.info/N12261>.

IMPORTANT DATES

- Paper submission deadline: 9 April 2012
- Acceptance notification: 28 May 2012
- Speaker registration: 25 June 2012
- Full Conference Paper: 30 July 2012

For full submission information please visit the PACE website at: <http://www.icin.biz/pace12> or download the call for papers [here](http://www.icin.biz/pace12). Papers presented at PACE12 will be published in the ICIN 2012 Conference Proceedings and IEEE Xplore.

If you have any questions on topics, content or the selection process, please contact: pace@icin.biz.

Best regards
