

# Conference Programme Now Available!

Sterling, September 2008: [ICIN](#) is pleased to announce the Conference Programme for [ICIN 2008](#) in Bordeaux, France, 20-23 October 2008. ICIN is recognized as one of the world’s leading conferences in the application of intelligence in the service layer and has a track record of attracting leading experts from all sectors of the ICT industry with high quality presentations and discussions.

[ICIN 2008](#) ‘Services, Enablers and Architectures: Supporting Business Models for a New Open World’ will examine technology and business issues including the impact of emerging technology, architecture and industry trends on intelligent communication services.

*“ICIN is a remarkable event. No other conference in telecommunications offers a comparable mix of insight and experience – delivered through the invited keynotes, the submitted presentations and the delegates themselves.”*

*Stuart Sharrock, Chair of the ICIN 2008 International Advisory Board*

The ICIN [Programme](#) features over 90 components including tutorials, peer reviewed and selected scientific and technical sessions, posters, keynote and panel sessions, and networking opportunities.

ICIN 2008 is pleased to announce the participation of key figures in the industry: [Dr. Kou Miyake \(NTT\)](#), [Simon Bureau \(Vectis Corporation\)](#), [Agustin Núñez-Castaín \(Open Movilforum\)](#) and [David Pecota \(Microsoft\)](#) within the [Keynotes and panel session](#).

The profile of the scientific and technical speakers presenting at ICIN 2008 is as follows:

## Comprehensive Results from R&D Organisations

ICIN 2008 also features a pre-conference tutorial and seminar day:

1. Delivering Services over IMS – It’s Showtime, Folks! Ulf Olsson (Ericsson, SE)
2. Identity Management in the Service Delivery Environment – Enabling Secure Web 2.0 and 3<sup>rd</sup> Party Based Application, Anders Lundqvist (Oracle, SE)
3. Cross-Fertilization of IMS and IPTV Services over NGN, Niklas Blum and Christian Riede (Fraunhofer FOKUS, DE)
4. Security Aspects and Mechanisms of the Identity Management, Igor Faynberg and Hui-Lan Lu (Alcatel-Lucent, US)
5. Sponsored seminar by NeuStar, Inc.: ENUM in Action, Adrian Dodd (GSMA, UK) and Steve Granek (NeuStar, US)

More details of the ICIN 2008 Programme can be found [here](#).

ICIN is uniquely positioned to make serious contributions to the current debate on the future of the communications sector. If that's a debate that affects, concerns or interests you then please consider contacting us to participate.
